

ZAIN QAZI

Front-end Developer | Python Learner

+92 317 2871059 | qazizain253@gmail.com | My LinkedIn | Hyderabad, Pakistan

PROFESSIONAL SUMMARY

Motivated and self-driven frontend developer with practical experience building responsive web interfaces using HTML, CSS, Bootstrap, JavaScript, and jQuery. Completed multiple hands-on projects covering UI design, DOM manipulation, and basic application logic. Currently expanding skill set into Python programming including data structures and scripting. Eager to contribute to a development team and grow through real-world experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (JS), jQuery

Backend / Scripting: Python (currently learning — data structures, OOP, scripting) · Flask (in progress — actively integrating into adminZQ Restaurant Suite)

Core Concepts: Responsive Web Design, DOM Manipulation, UI Development, Object-Oriented Programming (OOP)

Tools: VS Code

EDUCATION

Intermediate (Pre-Engineering)

Expected 2027

Govt. Degree Boys College Qasimabad, Hyderabad, Pakistan

PROJECTS

Marco Web | *HTML5, CSS3*

- Designed and developed a structured multi-section web page with custom CSS layout architecture, typography, and responsive styling.
- Implemented an organized culinary menu showcase with item pricing, categorization headers, and a multi-column customer photo gallery grid.
- Built an interactive table reservation interface with styled input controls for customer contact, party size, and schedule bookings.

Moision Doree Web | *HTML5, CSS3, Bootstrap 5*

- Developed a modern, responsive artisan jewelry brand website utilizing Bootstrap 5 grid layout system and responsive UI components.
- Engineered a dynamic hero carousel with timed multi-slide transitions, mobile-responsive navigation bar, and featured product showcase with detailed material specifications.
- Structured high-resolution collection image galleries and story sections optimized across desktop, tablet, and mobile viewports.

iOS Calculator | *HTML5, CSS3, JavaScript (ES6)*

- Built a functional browser-based calculator faithfully reproducing the Apple iOS design system with dark theme styling, circular action buttons, and responsive display.
- Implemented JavaScript arithmetic calculation logic supporting addition, subtraction, multiplication, division, percentage calculation, and backspace deletion.
- Integrated defensive error handling using try-catch blocks with automated error recovery timeouts for invalid arithmetic expressions.

Bank Management System | *Python, JavaScript*

- Engineered a banking transaction system handling core operations including secure PIN authentication, account detail retrieval, and balance inquiries.
- Programmed deposit and withdrawal processing modules with robust input validation to prevent negative values and overdraft transactions.

- Generated formatted transaction summaries featuring automated unique transaction IDs, previous balances, and updated account totals.

adminZQ — Restaurant Suite | *Python (Flask), HTML5, CSS3, Bootstrap 5, JavaScript, jQuery*

- Engineered a full-stack restaurant management platform using Python (Flask) on the backend, with 18+ server-side routes handling navigation, order processing, sales analytics, and staff workflows — Jinja2 templating used for dynamic server-rendered HTML pages.
- Designed a feature-rich admin dashboard with KPI statistics cards (revenue, orders, staff, inventory), interactive sales charts, real-time order management tables, and customer/menu management modules built with Bootstrap 5 and jQuery.
- Implemented modular sidebar navigation with active-state management, toast notification system, and role-based page routing — backend integration actively in development with Python (Flask) and expanding toward database connectivity.

CERTIFICATIONS

Galactic Problem Solver — NASA International Space Apps Challenge

October 2025

- Awarded certificate of recognition by NASA (presented by Dr. Keith Gaddis, Program Scientist) for outstanding participation and technical problem solving to address challenges on Earth and in space.
